— Bhagavad Gita (Chapter 13), Verses 9-11

GURU'S INTERPRETATION

These verses from the Mahabharata speak of Nirvana, a state of ultimate bliss and liberation. The Brahmarshis and Maharshis, the great sages, recognize it as the primordial state of existence, the very foundation of being. Think of it as the still point at the center of a spinning wheel, the unmanifest source from which all creation arises. This Nirvana, personified as Dharma itself, leads one to liberation, to that which is known as Prakriti, the fundamental nature of reality.

This original Dharma, pure and untainted, shines brightly in the initial age, the Satya Yuga. It's the inherent goodness and truth that exists before complexity and distortion cloud our perception. As we move through subsequent ages, however, the Dharma of Vikara, of change and distortion, becomes more prominent. These are the Dharmas that bind us to the cycle of Samsara, the endless round of birth, death, and rebirth. They are the rules and regulations, the societal norms, the desires and attachments that keep us trapped in the illusion of separation.

In our modern lives, we are constantly bombarded with these Vikara Dharmas. Consumerism, social media pressures, and the relentless pursuit of external validation all pull us away from our true nature. The Mahabharata reminds us that the path to liberation lies in recognizing the original Dharma within ourselves, the inherent goodness and truth that is always present, even amidst the chaos of modern life. By cultivating self-awareness, practicing mindfulness, and detaching from the fleeting pleasures of the world, you can begin to reconnect with that inner stillness, that state of Nirvana. It's a journey of returning to your source, to the pure, unadulterated essence of who you truly are. Embrace the timeless wisdom of the Mahabharata, and allow it to guide you on your path to liberation.

REFLECTION FOR TODAY

What small step can you take today to detach from the Vikara Dharmas that bind you and move closer to the pure Dharma within?
